

PATIENT DETAILS

Appointment ID	Date	Time	DOB
6944e0683a06fd436d845b75	20/12/2025	06:00 AM	1998
Name	Gender	Address	
Nitish	Male	Tdi City Mohali Punjab	

PRESCRIPTION

S.No.	Medicine	Dose	Time	Duration
1	Mxim 50mg Dry Syrup	1	1	1

Advised: A
Advice Given: A
Special: A
Next Appt: 2026-01-16
Insurance: N/A

No Signature
Dr. Clinic Doctor 1112

As per checking, the API causing the charges (Distance Matrix API) is still set to "Unlimited" Requests per Day. This might result in another increase in your API usage if preventative measures are not properly implemented.

Please establish a usage cap for the specified API to prevent any future unforeseen costs. As your billing account is currently inactive, you are presently unable to configure these quota restrictions.

For guidance on setting up the capping, please refer to this link: <https://developers.google.com/maps/billing-and-pricing/manage-costs#set-caps>

To proceed, can you please confirm if everything is clear from a technical standpoint? If there are any aspects of the issue that need further clarification, we can transfer the case back to the technical team.

In addition, some of the API keys are not yet restricted. Unrestricted keys are unsecured because they can be viewed publicly, such as from within a browser, or they can be accessed on a device where the key resides. It is recommended to restrict API key usage to trusted hosts, HTTP referrers and apps.

In this link, you will find the provided steps on how you can set the restriction for any API, HTTPS referrers, browser and others : <https://developers.google.com/maps/api-security-best-practices#application-restriction>

Lastly, may I ask for additional information because this is important to our specialized team who will review your adjustment request.

1. Can you please explain what caused these charges? Explain in detail the following:

- What is the project used for?

- How did the excessive usage occur?

Total Price: ₹603

Terms: Do not share or alter.
